STAWELL SECONDARY COLLEGE

STUDENT ENROLMENT FORM

This form is designed to be used for enrolling students in Victorian government schools using CASES21.

Schools, please note:

It is imperative that any enrolment form the school provides to parents/guardians contains the questions marked with the symbol v (and shaded yellow) exactly as they appear on this form. This is a requirement of the Commonwealth Government.

All schools across Australia are required to collect this information for all students. Critical to the success of this process is that all schools use the nationally consistent definitions for student background characteristic information exactly as they appear on this enrolment form. The data obtained from this process is linked to student results on national tests, aggregated and published in such publications as the National Report on Schooling in Australia on behalf of Australian education ministers. No individual student or school is identifiable through the published information.

A copy of the School Enrolment Privacy Collection Statement must be attached to this enrolment form before distribution to parents and guardians as this is a requirement of the Privacy and Data Protection Act 2014 (Vic). School Enrolment Privacy Collection Statements are located here <https://www2.education.vic.gov.au/pal/privacy-information-sharing/policy>

Explanations of the Parental Occupation Group codes are included at the end of this document.

STAWELL SECONDARY COLLEGE

COMPUTER & INTERNET USAGE POLICY

Stawell Secondary College has facilities that allow students to access the Internet throughout the entire school. This enables students to use the Internet for research related to their subjects and as a means to contact people and resources worldwide via electronic mail.

During class time, teachers closely supervise students use, but at other times it is impossible to provide this level of supervision. Students accessing the Internet outside class times, are passively supervised (a teacher periodically checks on their progress).

With this privileged access to our computer network and the Internet comes the responsibility of students to not misuse the school's computer system hardware and software and to use the Internet in a responsible fashion. Access can therefore only be obtained after a student has agreed to abide by certain basic computer rules and parents also agree to their child's Internet access. The student will then be issued with a computer access and Internet password

Parents who want their children to use the schools computers but do not wish them to have access to the Internet can do so by signing a declaration below banning Internet privileges. Their children will then be issued with a computer password that denies access to the Internet programs only.

COMPUTER & INTERNET ACCESS RULES

1. Students will not misuse or damage any of the schools computer hardware or computer peripherals.
2. Students will not tamper with, delete or add any foreign software to the schools software registry.
3. Students will not give or allow other students to use their computer network or Internet access password.
4. Students who finish working on a computer will ensure they log off correctly at all times to prevent unauthorised access.
5. Students will not eat food or drink whilst using any of the schools computer terminals.
6. Students will adopt a responsible printer policy by keeping printer wastage to a minimum and will only print school-related material.
7. Students will not use the school's computer network, to run or copy any executable files (exe files), including computer games from the Internet or from home, since computer games are a major source of computer viruses.
8. Students will not bring to school or use on the school's computer network, any external storage devices containing pornographic or any other unsuitable material.
9. Internet use must relate to class work. It is not to be used for downloading MP3 files for example. This also includes use by VCE students during private study.
