RESPECT INCLUSION ASPIRATION RESILIENCE PARTICIPATION

PRINCIPALS REPORT

Victorian Education Excellence Awards (VEEA): You may have heard of the Victorian Education Excellence Awards (VEEA), which recognise outstanding staff in Victorian Government schools who make a lasting difference to student learning and their school communities.

Following her shortlisting in July and a panel interview, Ms Ling was selected as one of three finalists in the Outstanding Secondary Teacher category, among 37 finalists across all award categories. This recognition reflects Ms Ling's sustained dedication to teaching and the opportunities she creates for students at Stawell Secondary College.

Ms Ling, Mr Greenhalgh and I will attend the awards presentation in Melbourne on 23 October, where the winners will be announced. On behalf of the College community, congratulations, Ling, and best of luck!

Learn more about the 2026 VEEA finalists

2027 Preparation: Preparation for the 2027 school year is the key focus of the school administration across Term 4. With the announcement of Mr Greenhalgh as the new Principal in 2027, the school has advertised for two Assistant Principals. This process is currently at the shortlisting and interview stage, and announcements should be made in the near future.

We have also advertised and appointed one of the three Leading Teacher Sub-school positions for 2027. I am pleased to announce that Mr Reynolds has been appointed to the first of these Leading Teacher Sub-school positions.

In early November parents/carers will receive information regarding the 2027 school year. This will include details about parent voluntary contributions, booklists and resources, computer requirements, key dates and start-of-year arrangements, camps and excursions, uniform expectations, and information about available financial assistance. This information will help families prepare for the new school year and plan for any associated costs.

Professional Development Day – Wednesday 7 October: Our Professional Development Day provided a valuable opportunity for staff to collaborate within their faculties and focus on curriculum development. It was encouraging to see the level of engagement and the progress made, providing a strong foundation for our ongoing work in curriculum planning and documentation. Throughout Term 4, staff will continue to work collaboratively to develop consistent unit plans aligned with the Victorian Curriculum and supported by resources that cater for the diverse learning needs of all students.

Victorian Government Schools Agreement 2026 (VGSA 2026): The proposed Victorian Government Schools Agreement 2026 received strong support from employees across Victorian government schools, with 80,742 employees participating in the ballot and 93.1% voting in favour. The agreement is now progressing through the Fair Work Commission approval process. Once formally approved, the new pay and conditions are scheduled to take effect seven days after the agreement is published. The agreement includes significant salary increases and improvements to working conditions for teachers, principals and education support staff. Further information about the implementation of the agreement and its impact on schools will be shared as it becomes available.

Year 12 Final Days and Celebrations: Our Year 12 students celebrated the end of their secondary schooling with three days of dress-up themes: Personal, Australian Icon and The Simpsons. The celebrations continued with the “slip and slide " on Thursday, more shirt signing, and a sleepover at the College on Thursday night, providing students with an opportunity to spend time together and reflect on their years at Stawell Secondary College. On Friday, students farewelled staff and fellow students at a special assembly, featuring the traditional Year 12 farewell video and a much-anticipated dance routine. These celebrations marked a memorable milestone for our Year 12 students as they prepare for the next chapter of their lives. We wish them all the very best for their future endeavours.

Spring Music Concert: On Wednesday evening, Mrs Hemley and her talented young musicians delivered another fantastic Spring Music Concert. More than 100 family members and friends enjoyed an entertaining program featuring the College Band, solo and group performances on drums, violins, trumpets, recorders, clarinets and flutes, as well as two performances by the College’s Chinese dance group.

It was a wonderful evening that showcased the musical talents of our students and highlighted the dedication, enthusiasm and outstanding work of Mrs Hemley in developing their skills and confidence. Thank you to Mrs Hemley and all the students involved for making the concert such a memorable occasion.

Murray Hart

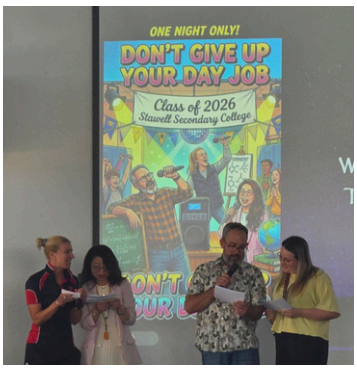

Congratulations to our wonderful Year 12 students of 2026! You have been an absolute delight, and it has been a pleasure watching you grow and achieve so much. We wish you all the very best for the exciting journey ahead and every success in your future endeavours.

celebrating the end of an era

YEAR 12

vm news

Year 11 VM

As part of the PDS (personal development skills) program, Kayan, Lilly, and Noah arranged a visit to J Ward in Ararat. For many of the students, it was their first time. It is such a fascinating experience, a glimpse into the history of the "criminally insane." Students were quite surprised by how people were classified as "insane". While there were genuine criminals incarcerated for heinous crimes, there were others whose crime was to be 'different', a loner. The autopsy room was quite the eye-opener. The doctors at the time literally removed the heads of the dead to study the mechanisms of the brain of the insane. After our extended tour, thanks to Bryan, our guide, the students had some downtime for lunch, and no doubt Maccas were happy to see them.

Again, a big thank you to Mr. Reynolds for driving the bus and to the students who were respectful, curious, and fun to hang out with.

Year 12 VM

VM news

And just like that, it is the last week for our Year 12 VM cohort; finally, after six years of high school, they are moving on. Students have been busy finishing their coursework, and most have already completed it and are out and about, working and planning their lives.

Last term we held our MasterChef competition as part of our Literacy studies. Thank you to Mr. Hart, Mrs. McDonald, and the legend Tanya from the tech team for judging. The final results were a 'special mention' to Riley and Charmaine. Riley was in charge of the chocolate pudding; it was so delicious that it needed a mention. The overall winners, who couldn't believe they'd won, were Siani and Cole. The winning dish was the humble carbonara, made from scratch. That was the key: the whole dish created by them. It had just the right amount of everything... who doesn't love cream, bacon, and garlic in the same dish?

In the middle of the madness, Mr. Reynolds and I tagged along with the Year 12 cohort on an adventure to Halls Gap. It was a perfect day of mini golf followed by a light lunch, and of course the obligatory ice creams up the main street. It is always a pleasure to put the books away and spend time with students out in our community.

It has been a pleasure to watch these young people grow in confidence and ability, and we wish them the best of luck and fun as they go out into the real world.

Mrs Giles

Year seven english

100 WORD STORIES

THE MAN

Mike wanted to cry, he sat there in pitch black holding the flashlight to his chest. His breaths were sharp, and the trees cracked and creaked outside as if mimicking the laugh that echoed through his mind. Henry held his breath, as the door opened and a faceless man walked in, the floor creaked the man pulled the blankets off the bed then he peered underneath Mike's bed and saw poor Henry was there. He grabbed him by the leg and before he could eat him Mike woke up. But out the window behind a tree was a faceless man.

By Lilah

CAMP BUTTER

At sunrise, Mia arrived at Silver Creek Horse Camp, excited for her first riding lesson. She met Jasper, a gentle brown horse with a white star on his forehead. Together, they trotted through the forest, crossed a shallow stream, and climbed a grassy hill. Suddenly, Jasper stopped. Mia looked ahead and spotted a tiny foal trapped between two fallen branches. Carefully, she calmed Jasper and helped free the foal. The camp leader praised her bravery. That evening, Mia sat beside the warm campfire, listening to horses munching hay nearby. She smiled, knowing her first day at horse camp was unforgettable.

By Layla

The Space Adventure

Lucy an astronaut was to take her first trip to the moon. After having just graduated from training at Nasa, Lucy was a nervous wreck. "We are ready for blast off in two minutes", instructor Adam said. Lucy was sitting in her seat preparing for blast off. Two minutes passed by like a breeze and before she knew it the ten second countdown had started. "10,9,8,7,6...", with each number taken away from the countdown Lucy's heart raced faster. "5,4,3,2,1." The engine started, Lucy could feel the rocket shaking ready for launch. The rocket left the ground. "Cut!" the director shouted.

By Imogen

CHRISTMAS

Sharing those times with family, presents, food and wrapping to chuck out. For me? Grandparents, presents, and food. Every Christmas I get one present and one present only, same with my brother. Most of the time I get money in a small box, but this year was different. Under the tree, a long box, wrapped in purple trees. Unwrapping it, I'm feeling an urge to tear it open. Now to the box, I open the side of the box, finding a small, plastic like something. Pulling it out, I find a soft box is in my hand. What is this?

By Harper

A present from Grandpappy

One day I got a present from Grandpappy. As I got inside my house, I opened the present and discovered an old-style camera. Excitedly I ran outside and started taking pictures of everything. Once I took a picture of my parents. When I got them developed, I went home and found my parents as babies. In a flurry of panic I ran inside and checked the box again, all I found was an old style flip lighter. As quickly as I could I burned the photo with the lighter. I went outside and found a distorted version of my parents.

By Reece

The Farming Disaster

"See ya Jim" Nathan called to his worker. "Have a good holiday mate" Nathan was heading back to his house after a long day on the farm. As he neared his front verandah, he saw some lights turn down his driveway. Nathan watched curiously. Suddenly it turned into his closest paddock and started spraying. Nathan got into his Toyota Hilux and sped off. "It's a sprayer and it will kill the field of oats" Nathan said to himself as he sped toward the paddock. Just as he got to the paddock the sprayer pulled out. The crop had been killed.

By Flynn

THE MAN AT THE WINDOW

I was trying to sleep when this random guy started bashing the window and I couldn't see him properly. It was so dark and there was fog or something misty around him and I was really scared. So, I quickly locked the window and locked all the doors and he kept coming. I was so scared I was trying to call my dad cause he said he was going to the shops but he accidentally left his phone at home. The man opened the front door and I ran and tried pushing the door shut I heard his voice DAD!

By Castiel

Year seven english

100 WORD STORIES

On a random Tuesday morning there was a frog called Broth. He lived in an abandoned basketball court in a forest. Broth plays with his little ball every day on the little court. Right next to it was a full-sized abandoned basketball court. He saw a lady in a white dress in the background of his own eyes. He thought nothing of it until he saw 3 men slowly going up to her but the girl disappeared. The 3 men came over to me but I freaked out a bit then they had a chat and I started jumping away.

By Blayze

Hunting Day

I woke up excited knowing that today I would be able to test my brand new .223. So I ran and jumped on mum and dad's bed. But they didn't like it so I got grounded, but I would do anything to shoot stuff. So we went out to call some foxes up and show them what a .223 bullet tastes like. So then I started to call them up using my leveret. Then a fox came out from the bush very excited that I was going to eat it. I lined it up, and then BANG! I woke up.

By Nash

The grandfather clock

The grandfather clock in the hallway struck exactly twelve. Clara immediately froze, her teacup hovering inches from her dry lips. The house had been empty ever since her grandmother passed, the dust and old memories piled up.
Slowly, she walked down the creaking corridor. The heavy clock rang loudly, the dust sliding off it. Beneath its rhythmic ticking, a faint scratching was heard in the silence. Clara reached for the key hidden on top of the frame. As her fingers hovered over the cold, dusty wood, a muffled voice within whispered her name, begging her to let them all free.

By Annica

The cat in the hat

There was a boy who read a book that had 100 pages in it. The book name was "The Cat in the Hat". It is a scary story where the cat is getting people who are sleeping in their beds. The cat in the hat then also puts a big hat on your roof and then 100 cats come out of the hat. The boy got up and said, "Where is that noise coming from?" Then the cat in the hat opened the door and said, "scream and run". The boy ran and screamed so that he wouldn't get eaten.

By Brandon

The Frog

Three man go to the forest with a basketball and they saw an abandoned court. They go in to the court and play but all of a sudden they saw someone that was wearing a white dress and she has a long hair. So they decided to confront her but when they looked back the girl is already gone. They saw a frog on the way out and they decided to ask him if he saw anything. So the frog started jumping the unknown way and they followed him through the unknown way and the 3 men are gone forever.

By Jacob

The dream

Bailey always had these dreams of being in a group, but none of the people in these groups had faces, they were faceless. Bailey had told these dreams to her mum, her mum didn't think much about it (although she should have). Bailey goes to go to bed. Bailey tried to talk to one of the group members and she chose the girl sitting in the corner. Bailey crept towards her, trying not to make a noise.
"Hi what's your name?"
The girl looked at her and grabbed her and took her into the dream!
"Bailey wake up, Bailey? BAILEY!"

By Manon

Ferret Kids

One day two kids who were cousins got a ferret. It was weird, it was too nice, it didn't bite and did everything it was told. When the kids were sleeping the ferret put a spell on them turning them into ferrets. The ferrets were bored and went to the moon. Rabbit magically turned them into humans and flew them back to earth and then the evil ferret came back too. He thought the two other random ferrets were the kids so it tried talking to them. When they didn't answer it got so angry and flew to the moon.

By Georgia

HUMANITIES

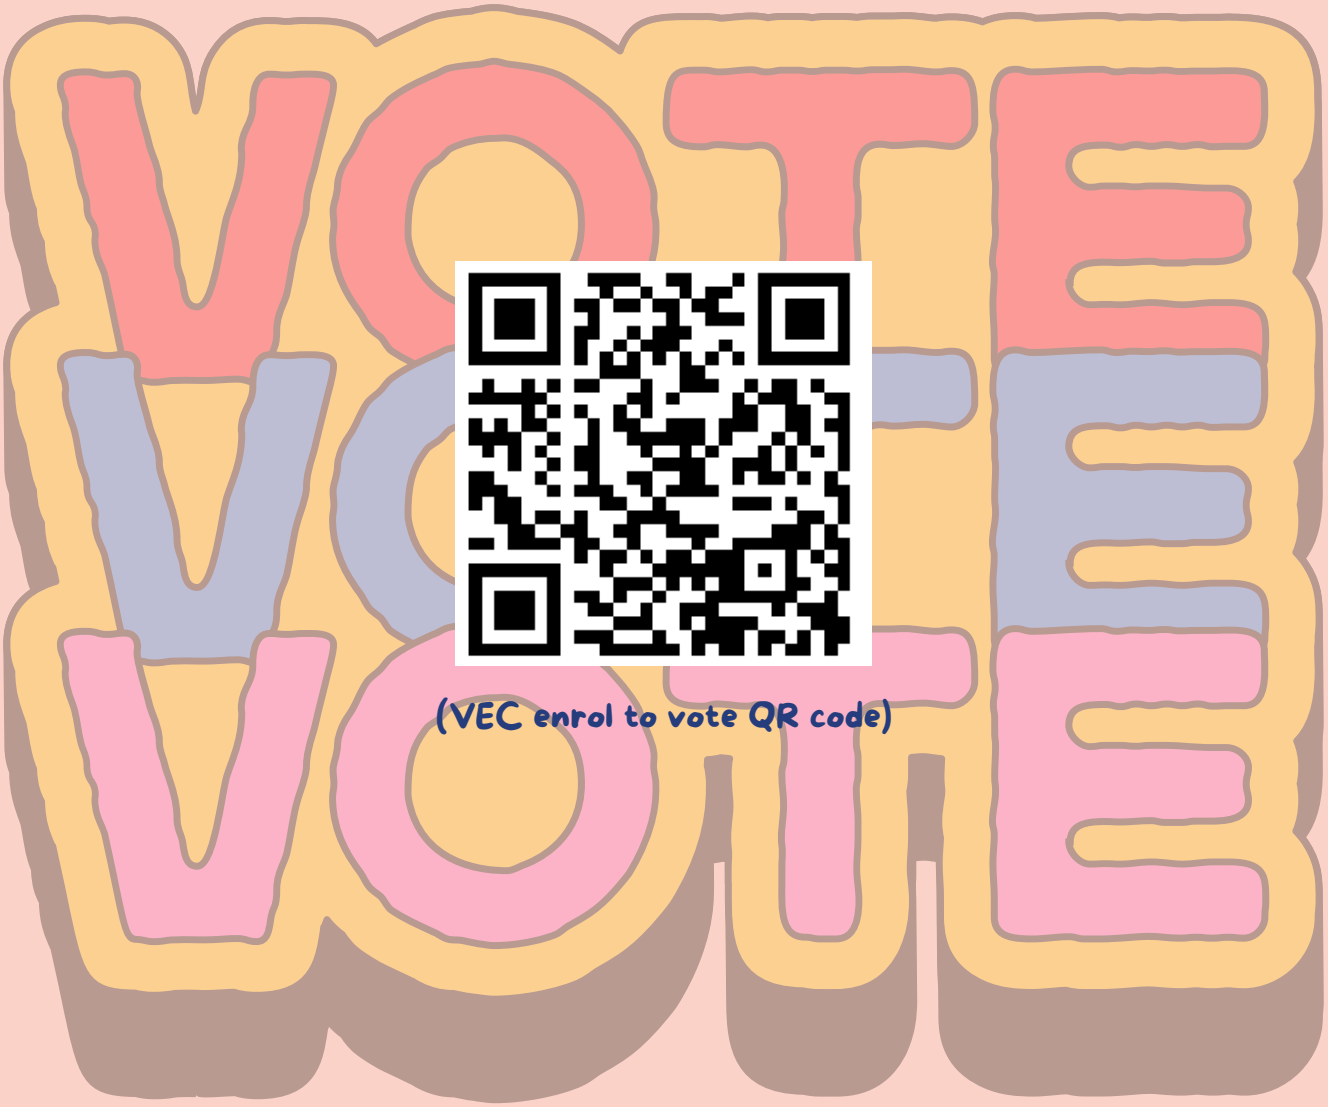

Civics & Citizenship – Year 8s & the 2026 State Election – Your Vote

The 2026 Victorian State election is right around the corner, on Saturday 28 November people from around the state will head to a local school, RSL or community centre, cast a vote & grab a democracy sausage. Our year 8 students will spend the start of this term learning all about how an election operates, the political landscape of Australia and why it is important to be informed voters.

But the very first step is actually much simpler - you must be registered to vote!

While our year 8s aren't old enough to vote, anyone over the age of 18 sure is. If you haven't enrolled yet, head to the VEC's website and fill out your details. In Australia, our voting system is mandatory, which means everyone who is eligible to vote, must do so or face a fine.

If you are already registered to vote, now is a great time to check that your details are correct. If your address has changed you may need to update that.

(VEC enrol to vote QR code)

Year 8 Systems

CO2 Dragsters

Samples from the year 8 Systems class whose task was to design a dragster powered by a CO2 cannister. The official Raceday is Friday 23rd October.

FRIDGE Friday

LEARNING SKILLS FOR LIFE

We kicked off Term 4 with our Junior Fridge Friday group, making the most of what we had available! With fewer leftovers from classes this week, students got creative by using fresh produce from the school veggie garden and ingredients from our pantry staple box.

The group whipped up pizzas made to order using tortillas as bases, a delicious chicken and vegetable pasta bake, and individual mini apple pies. It was fantastic to see students working together, using their initiative and turning simple ingredients into tasty meals and treats!

FOOD TECH

Back to School and Back to the Kitchen this week for year 7B. We started Term 4 with cooking ANZAC biscuits.

Term 4 has kicked off with a delicious start for our Middle School Food Technology students! In Week 1, students made their own pizza bases and chose their favourite toppings to create their very own pizzas. It was a great way to get back into the kitchen and start the term with some hands-on cooking fun!

Chinese Program

Junior Chinese Classes

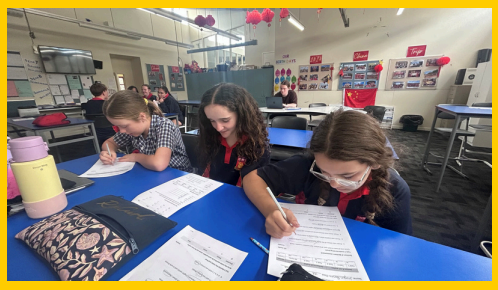

Year 7 students are finishing the Pinyin unit and starting a new topic, 'My Friend and I'

Year 8 students are learning how to order Chinese food so they can use their language skills in an authentic setting - a Chinese restaurant.

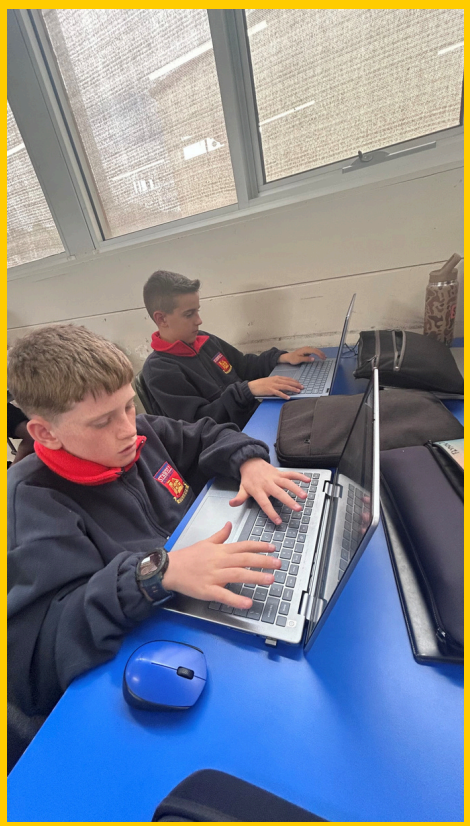

Year 9 students have started our current unit, 'My Community', and are following our lesson routines well. We focus on retrieval practice at the start of each lesson to strengthen connections in long-term memory.

Through regular practice, we aim to build students' fluency, mastery and confidence in using Chinese.

Senior Chinese Classes

Year 11 students are working hard to prepare for next year's content and exams. We have established a routine of VCE vocabulary tests on Mondays, followed by lesson recall and vocabulary dictation on Fridays.
Keeping these routines consistent helps everyone understand what to expect at the start of each lesson, freeing up working memory to focus on learning new content.

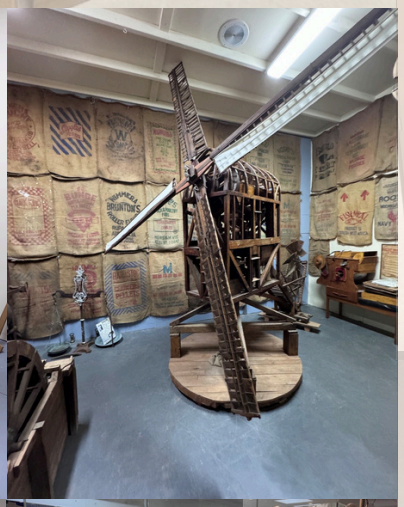

Year 12 students completed their oral exam last Thursday - hooray! Now we are focused on preparing for the final written exam. Keep up the momentum and continue attending our Chinese classes. You can't say 'goodbye' to our Year 11 Chinese students just yet - we will celebrate together after the written exam!

WHAT'S NEW IN THE Ag View!

EXCURSION TO WOODS' FARMING & HERITAGE MUSEUM

In Week 2, the class travelled to Rupanyup to visit the famous Woods' Farming & Heritage Museum.
From the moment they entered the front room, students were amazed by the incredible collection of artefacts on display.
The self-guided tour took them through the museum's many large spaces, showcasing an extensive range of farming equipment and machinery, along with a variety of other fascinating collections.

Students explored a replica street of shops, including a butcher, post office, hardware store, blacksmith, paint shop and boot shop. They also stepped back in time through two fully furnished houses from the 1920s and 1940s, each showcasing the everyday items and furnishings you would expect to find in a family home.
Throughout the museum, students discovered separate collections of everyday household appliances and items, including washing machines, televisions, sewing machines, vacuums and tools. There were also extensive collections of tins, bottles, toys, matchbox cars, signs, Rupanyup FNC merchandise and an old printing machine. The highlight for many was the final shed, which housed an impressive collection of more than 92 tractors and other farming machines!
Most of the collection was gathered by the Woods brothers, with many additional items donated by the local community over the years. Among these was a truck belonging to Mrs Lang's grandfather, R. N. Barker.
It was fantastic to see students discussing how everyday appliances and technology have changed over time. The collection also sparked memories of items they had seen at their grandparents' homes and things they remembered from their own childhoods.
It was a fantastic excursion and a great way to round off the year for VET Ag, with the class set to come together for their final session in Week 3!

MUSIC PROGRAM

spring concert

Wednesday 14 October saw our music students take to the auditorium stage, showcasing their musical talents for the school and town community.

MIDDLE SCHOOL

Monday 16 November: English exam periods 1 & 2 in scheduled rooms.

Thursday 19 November: Maths exam periods 1 & 2 in scheduled rooms.

NB: students may have additional exams for other subjects. Teachers will communicate this with students.

Students will be able to prepare for these exams during their study session every Friday period 4.

DISPLAYING OUR CORE VALUES

We celebrate the following Middle School students who have been recognised by their class teachers for displaying our school values over the last two weeks.

Year 9: Piper Davidson, Jordan Lockwood, Maiken McKitterick, Laura Notting

Year 10: Satria Tiley Shayla Madin

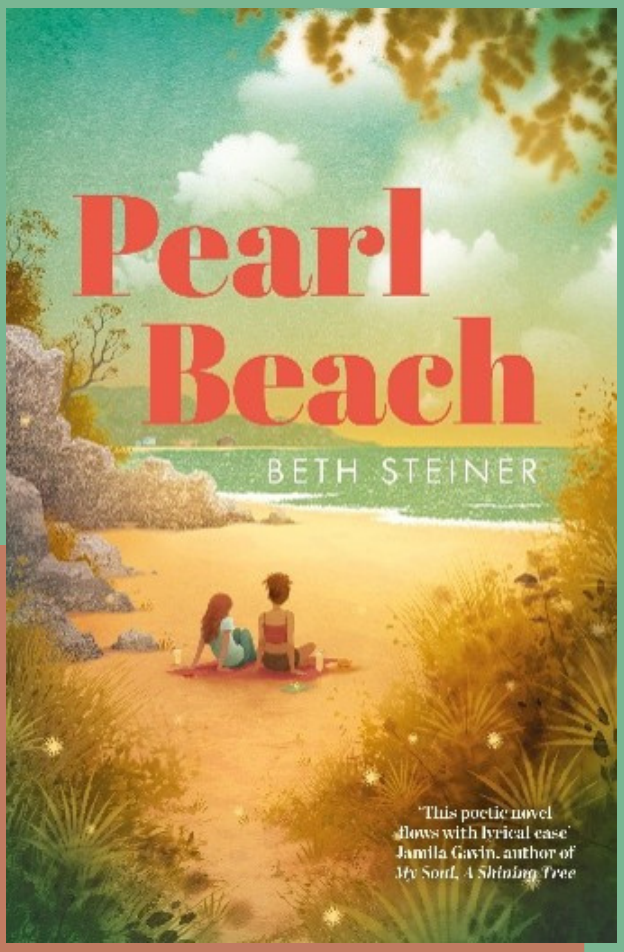

Coolas Ice Creamery

Junior Staff (Ages 15–18)
We are looking for junior team members who are available to work during school holidays, as well as some weekends throughout the year. This could be a great opportunity for students looking to gain work experience, build confidence, and earn some money in a friendly, fast-paced environment.

We're also looking for parents who may be interested in casual work during the school holidays, with the potential for ongoing weekend and weekday shifts throughout the year. We understand that family commitments and school drop-off and pick-up times can make availability tricky, so flexibility around working hours and days is available. We're happy to work with the right people to find a schedule that suits their circumstances.

Anyone interested is welcome to bring their resume directly into Coolas Ice creamery in Halls Gap, where they can introduce themselves and have a chat with us about the available opportunities.

Pearl Beach
Author: Beth Steiner

book of the week

This summer I'll grow up.
For as long as Billie can remember, summer has meant one thing: Pearl Beach. The idyllic seaside home belonging to her old Aunt Edith, and the place where she met her best friend, Andy.
But this summer, everything seems to be changing. Andy is more interested in makeup and boys than in Billie, and Aunt Edith has decided to stay with them for the whole summer. Edith is a Holocaust survivor, and whenever Billie tries to talk to her, her words seem to crumble under the weight of this knowledge.
Then Edith begins to share her story. Because she was once fourteen, too, and understands all too well the pain for growing up. What follows is a tale of first love, betrayal, and resilience. As the summer, and story, unfolds, so does a profound friendship between Billie and Edith. They may be generations apart but what they share will change both of them forever.

Acknowledgment of Country: We respectfully acknowledge the Traditional Custodians of the land on which we gather today: the Wotjobaluk, Jaadwa, Jadwadjali, Wergaia and Jupagalk Peoples, and pay our respects to their Elders past and present.
It is a privilege to stand on Country and to recognise the enduring connection these Nations have to the land, waters and culture.
We also acknowledge the significant contributions of Aboriginal and Torres Strait Islander peoples, alongside all Australians, to the education and wellbeing of all young people across this country we share - Australia.

STAWELL SECONDARY COLLEGE 2026 PRESENTATION AFTERNOON

Stawell Secondary College's Annual Presentation Ceremony will be held on Friday 27 November at 2pm in the Auditorium.

We would like to invite all families to come along and join us in celebrating the efforts and achievements of our Year 7-11 students in 2026

Our Year 12 students will be recognised for their achievements this year at their Graduation Ceremony.

CONGRATULATIONS

We congratulate Nita Evans, mum of William Evans, on being the lucky receipt of the $200 Voucher to spend in Stawell following Nita replying to the Parent/Carer Opinion Survey.

We also thank the other 67 families who took the time to participate in this very important Survey that tells us what you would like improved or changed or what you like now.

This is an annual Survey that remains totally unanimous. Thak you everyone.

David Burgess Scholarship - Applications Now Open

The David Burgess Scholarship Foundation (DBSF) supports exceptional, resilient young people from Victorian government secondary schools. Since 1991, it has awarded scholarships to nearly 80 students who have overcome significant adversity and gone on to succeed in tertiary education and life.
The scholarships are open to Year 12 students who have faced adversity and demonstrated determination, character and a commitment to their community.

Scholarship recipients receive:

Financial support of $7,500 per year, indexed, for the duration of their course at a Victorian university or TAFE.
Support from two volunteer mentors, who provide guidance and encouragement throughout their studies and help them transition from school to tertiary education.

This year's program also includes an additional STEM scholarship for a young woman intending to undertake tertiary study and pursue a career in science, technology, engineering or mathematics. The Toyota Community Trust is supporting one additional STEM scholarship each year for the next three years.

How to apply

Applications opened on Wednesday 7 October 2026 and close on Tuesday 10 November 2026. Applications must be submitted through SmartyGrants, administered by Equity Trustees. There is no limit to the number of students a school may nominate.

View the application information and apply here

Interested students are encouraged to review the eligibility criteria and application requirements. Please speak with Ms Ling, VCE Coordinator, if you need support with your application. A reminder that applications for the Youthrive Rural Chances Scholarship will close soon. Please see the scholarship flyer for details and apply as soon as possible!
